## TURNAROUND & RESTRUCTURING SERVICES

Turnaround & Restructuring is our DNA. As one of the leading global providers our team works on many of the world’s largest and most high-profile bankruptcies, restructurings and emergency situations. Our client offering is focused on three areas:

### Turnaround & Restructuring Consulting

In most urgent situations, businesses need to stabilize their finances and improve their operations to preserve value. Working with management, banks, lawyers, and other professionals, we help companies improve results for the benefit of all stakeholders. Our efforts are designed to have immediate, material, and quantifiable positive impacts.

Our services include:

- Liquidity management and crisis stabilization
- Whole company turnarounds and business transformations
- Creating and delivering restructuring plans
- Pro-active turnaround – a pro-active decision to entirely turn a company improving the position of the most relevant stakeholders sustainably
- Stakeholder management

### Interim Management and Chief Restructuring Officer Services

During times of change, businesses require hands-on, experienced leadership. We initiate and implement improvement and restructuring plans, while reporting to a company’s board of directors and working closely with all major stakeholders.

Roles include Chief Executive Officer, Chief Financial Officer, Treasurer or Chief Restructuring Officer.

### Financial Assessment

Turnaround and restructuring often requires a detailed evaluation of a company’s financial situation. Our methodology closely and quickly examines a company’s finance function with a focus on effectiveness, efficiency, and risk.

We partner with our clients to make the right decisions and take the right actions.

**WHEN IT REALLY MATTERS.**
